Objective: Frontend web developer

Personal & professional resume

Currently working as a photographer/editor in Lisbon, for almost 7 years, I decided to change my career to be a Frontend web developer. Alongside my work, I started my online studies in Frontend development, learning technologies like HTML, CSS, JavaScript and React. After that, I continued my studies in a course created by a tech school called EDIT. - Disruptive Digital Education, in Lisbon, with classroom lessons. My objectives, besides the career changing, is grow as a professional with new skills, capabilities and challenged.

Soft skills: Fast learning of new technologies and concepts, great communication skills, organized and easy person to work with (team player).

Education

- **Full-Stack Web Development Course** (EDIT. - Disruptive Digital Education, Portugal) – 200 hours (conclusion 08/2023)
- **Bachelor degree:** Biological Sciences (Sagrado Coração University, Brazil) – (conclusion 12/2011)

Languages

- **Portuguese:** native
- **English:** advanced

Professional experience

PHOTOBOOKING (2019 – present)

Photographer

- Responsible for the photographic work in the real state sector, such as photographs, videos, virtual tours and the use of drones
- Carry out screening of the day's works that will go to editing

ZIEN24 (2017 – 2019)

Photographic editor

- Responsible to receive the raw photos of the photographers from the Netherlands company Zien24, and edit them to be ready for the final clients
- Give feedback to the photographers about the quality of the photos that came to us and what they need to pay attention to improve and so facilitate the edition

Complementary Courses

- HTML5 & CSS3 Course – Curso em video – 40h
- Git & GitHub – Curso em video – 20h
